

2024 JUNE FUTABA Preschool News letter

Japan will shortly enter the rainy season called “Tsuyu” as hydrangeas start to bloom and brighten this gloomy season. We hope to bring the children’s attention to Japan’s season, so they get to know more about it.

As the Summer Program will start this month, we hope the students can actively enjoy water and sensory play while stimulating their five senses. We will provide many activities that the kids can get excited about as we take safety measures during water play and continue to pay close attention to children’s health conditions.

June 10th is known as anniversary of time in Japan. We will try to make children show interest in clock by singing a “Tokei no uta” (clock song)
